

In this task you will critically review and appraise policy and practices that contribute to the health and wellbeing of children, young people and their families.

You will develop a written assessment that includes the review and appraisal of a health topic from the course schedule. For the topic you will summarise key policies and guidelines that inform the issue and services. You will review and critique contemporary practices which address the issue. A template is provided below to guide your response

Written Assignment Template – 1500 words

Include these topics:

1. Name the topic that you will review and appraise. (The topic must be reflected in the course resources, approximately 1 – 8 words).
2. Discusses health policies that apply to the topic. (This requires approximately 600 words and is to be supported with evidence and in-text referencing). (15%)
3. Apply principles of health promotion, primary health care and advocacy relevant to this issue. (This requires approximately 450 words and to be supported with evidence and in-text referencing). (10%)
4. Apply the principles of equity, self-determination, rights and access applicable to this health issue as relevant to Aboriginal and Torres Strait Islander families. (This requires approximately 450 words and to be supported with evidence in-text referencing) (10%)
5. Harvard References. (Not counted in word count 5%)
